

Black Cat Bone
Jessie Mae Hemphill

Open G

I believe to my soul my baby got a black cat bone
I believe to my soul my baby got a black cat bone
Try so hard just can't leave her alone

Come on baby, tell me what you trying to do
Come on baby, tell me what you trying to do
Trying to love me baby, and some other man too
(Spoken: Can't do that to me)

She's long and she's tall, weeps like a willow tree
Long and she's tall, weeps like a willow tree
I feel so good when a woman makes love to me

Hold me baby, hold me in your arms
Hold me baby, hold me in your arms
Want you to love me 'til your good man comes

Come on baby, tell me what you want me to do
Come on baby, tell me what you want me to do
Did everything darling, trying to get along with you
